The importance of training on Occupational Safety and Health for Shipbreaking Workers

Industriall Global Union
World Conference on Shipbuilding-Shipbreaking

10-12 November 2014
Nagasaki, Japan

Joop van Oord – Koos de Meij
OSH for Shipbreaking Workers

- After about 30 years come the end of a ship
- She will be demolished
- The job will be done by hand and winches (cranes)
The enormous OSH differences between building and breaking yards.

Quote by Dr. Shanti Patel (he passed this year) from India: “This is one of the worst jobs in the world.”
OSH for Shipbreaking Workers

- The working environment
- Bad safety conditions
- A hard and difficult job for the Unions
OSH for Shipbreaking Workers

> The trade union has partly taken over the role for safety and personal protection equipment (PPE)

> An important role for individual guidance of victims and surviving relatives.

> Training in Safety and Using tools on the right way
Help of other trade unions all over the world is very important.

This help is being offered from various sides.

In consultation FNV Bondgenoten has drawn up an interactive “Train the trainer” program.

Designed especially for the shipbreakers in India.

A 3 year project.
OSH for Shipbreaking Workers

> Training for Trainers
> प्रशिक्षकों के लिए प्रशिक्षण
> shipbreaking in India
> भारत में जहाज़ मंजन उद्योग

> A training program with more than 12 Safety and Health Topics

> Werkt in je voordeel
OSH for Shipbreaking Workers

- On the final day of the training small groups of participants give presentations on the items they have studied.

- The project will be finalized by an accompanying instruction film.

- Lives have been saved

- Training on OSH is of the utmost importance
