CEPPWAWU EXPRESSES ITS SOLIDARITY WITH THE MEXICAN WORKERS

CEPPWAWU expresses its support and solidarity with the struggle of MEXICAN Workers for “A Just and good working conditions”.

The MEXICAN Government has intensified its brutality and abuse workers rights daily. There is growing pressure towards the government for Just or fair treatment of workers.

As CEPPWAWU we consistently express our decisive and practical solidarity to the struggle of the MEXICAN workers for:

- Pasta De Conchos justice
- By rejecting the recent regressive labour law reforms
- The satisfaction of the trade union demands for labour rights
- The implementation of the outstanding ILO complaint No. 2694 on Protection Contracts

We call on all progressive trade union movements to support MEXICAN workers in fighting against the unjust-labour measures that aim to protect the interest of the monopolies.

The path of class struggle is the only way out for the workers and for your struggle, you will always have the solidarity and the supports from South African working class until all MEXICAN workers are enjoying the right to steady jobs and decent wages.

Revolutionary Greetings

Simon MOFOKENG
General Secretary
