

GLOBAL WEEK OF ACTION AT **ALCOA**

Alcoa Workers across the globe are taking action this week to demand justice and fair treatment.

Unions representing Alcoa employees in over a dozen countries have come together to form the Global Network of Unions at Alcoa. This network of unions – which includes your union – decided to declare this week a global week of action at Alcoa worksites.

Workers at Alcoa sites around the world are participating by holding solidarity events, wearing stickers, circulating this flyer and taking other locally appropriate actions.

Through participating in this global week of action, workers at Alcoa are demanding:

- **FAIR WAGES.** A lot of our unions will negotiate wages and other conditions of work with Alcoa in the coming months. We deserve a fair wage increase and other improvements.
- **HEALTHY AND SAFE WORKPLACES.** Alcoa must always and everywhere maintain policies and procedures that put worker safety before any other concerns.
- **THE RIGHT TO ORGANIZE.** Alcoa must respect the fundamental right of workers to organize into unions and to bargain in good faith where those workers choose to organize.

If Alcoa ignore our issues, unions in the Global Network of Unions at Alcoa have committed to work together to pressure the company to do so.

Through taking action together, we can achieve justice and maintain fair living standards for workers at Alcoa.
