

Urgency resolution - CUB55

IndustriALL Global Union stands against rampant industrial thuggery by capital, and stands with workers who lose their jobs due to corporate restructuring, contracting out, contrived bankruptcies and other methods of destroying workers jobs and rights.

IndustriALL notes and condemns the actions of Carlton and United Breweries, a subsidiary of AB-InBev in sacking the 55 maintenance workers at its Abbotsford, Victoria plant, and the offering of their same jobs back at 35% of the previous rate of pay.

IndustriALL expresses its support for the 55 workers, who have now been picketing the site for over 100 days. It also pledges its support for the boycott of all CUB products, and requests all conscious workers around the world to likewise refuse to consume CUB products.

This 2nd World Congress of IndustriALL meeting in Rio de Janeiro calls upon the company to reinstate the workers, and endorses the actions of the 2 unions, IndustriALL affiliates the Australian Manufacturing Workers Union and the Electrical Trades Union and the Australian trade union movement in supporting the sacked workers. IndustriALL stands with these workers in their struggle.
