

Fellesforbundet

styrke
og troverdighet

Rotterdam 31. October 2017
Sustainable Industry Policy, Fellesforbundet
Mohammad Afzal

Fellesforbundets 10 commandments for industry.

Fellesforbundet

- 1. That the industry is for everyone.**
- 2. That the development of new industry stands on the shoulders of the industry we already have.**
- 3. Our natural resources and renewable energy industrially are utilised.**
- 4. That the industry is based on permanent appointments and employees' active participation.**
- 5. That workers can obtain new and relevant knowledge and skills.**
- 6. New technology develops industrial production and provide just transition.**
- 7. The state contributes to real interaction and partnership between research, education and industry.**
- 8. The state uses its ownership in the industry actively and purposefully.**
- 9. That public procurement contributes to innovation, development and permanent employment.**
- 10. That the industry is given good framework conditions.**

Sustainable Industry Policy, Fellesforbundet.

Sustainability will be the red thread in everything Fellesforbundet do in Norway now and in the future.

We can promise you that we will ask questions about the company's green profile, about the entrepreneurs socio-economically thinking and the willingness to contribute to a sustainable future for all of us.

And we want to make the answers count.

Fellesforbundet

5000 ship in the world.

Only 100 powered by LNG and 50 of them are Norwegians. We need more use of LNG.

Fellesforbundet

Green, smart, innovative from Ulstein Yard. Plug-in hybrid ship in traffic 2019 from Norway to Sweden.

Autonom and total electrified.

Will replace yearly 40.000 truck on the road from 2020.

Digitization and innovation challenge the Norwegian model and the collective agreements.

Norwegian government/ Innovation Norway

Condemnation subsidies for ships in short sea shipping will help to eradicate older ships in Norwegian waters and replace them with newer and more sustainable capacity.

This option is not used by ship owners because.....

Export Credit Norway signs up to the Responsible Ship Recycling Standard, September 2017.

The Responsible Ship Recycling Standard (RSRS) aims to protect people and the environment in connection with the dismantling of ships.

Fellesforbundet and Export Credit had joint meeting in Oslo 18. October 2017.

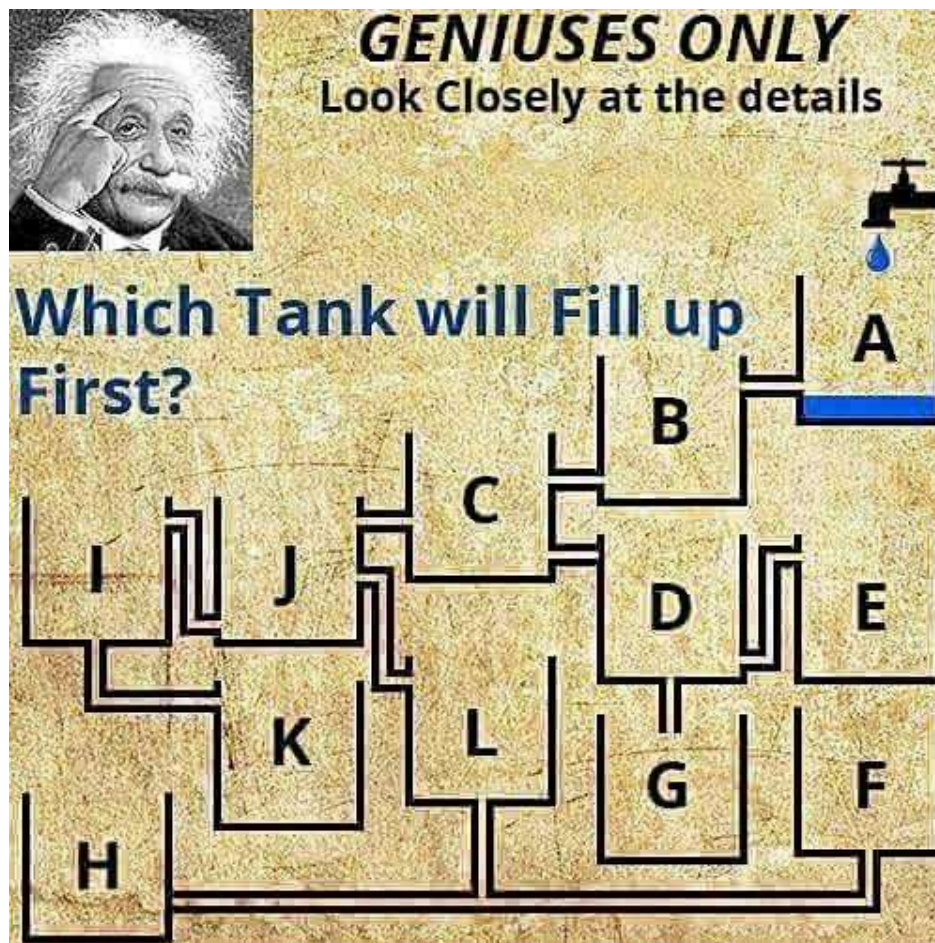

Fellesforbundet

I will buy a drink to the first right answer.
