Notes:

- A. The reported data does not comprise all signatory member brand/ retailers of the Accord and data will be added as they report. Two values that adjust with member data are the "Approximate Total number of Factories: 1557" and the "Approximate Total number of workers: 2,025,897"
- B. Duplicate entries with same factory name and address have been removed. However, entries with same factory name but different addresses have been kept as reported.
- C. The addresses of factories are as reported.
- D. In the number of buildings column the 's' stands for 'sheds' -- generally meant to describe support function rooms/buildings inside factory premise. Generally one storied with no concrete roofs.
- E. The "Number of stories of each building" and "Floors of the building which the factory occupies" columns contain values like "1/5; 2/1; 3/1;" This means building one has 5 stories, building 2 has 1 story and building 3 has 1 story.
