**Solidarity message for the striking members of Workers United, Local 2641 at NGF Canada**

Dear Comrades,

We are writing on behalf of the Centrale Générale FGTB of Belgium, a blue collar workers' union affiliated to the IndustriALI Global Union, and representing among others the interests of the glass workers.

We have been informed about the strike at the NGF Canada plant in Ontario and we have learned the intentions of the management to mark a downturn of working conditions.

We hope the management will return to the bargaining table to negotiate a fair agreement and maintain decent working conditions.

We would like to express our support and solidarity with your struggle . Please pass this message on to workers of Workers United, Local 2641.

Brahim HILAMI  
Federal Secretary

Yours in solidarity,

Alain CLAUWAERT  
President
