

RESOLUTION

STOP Precarious Work

Throughout the world, across all sectors of IndustriALL, precarious work is on the rise, replacing permanent, direct jobs with insecure jobs that have no future. Precarious work undermines workers' rights and give many workers in global productions chains no option but to accept insecure jobs.

Millions of workers in precarious jobs are excluded from the protection of labour laws, from social security and from pension schemes, and live under the constant threat of unemployment.

IndustriALL affiliates hereby resolve to:

- Support a global campaign to STOP Precarious Work which draws upon existing campaigns led by ITGLWF, ICEM and IMF
- Promote equal treatment for precarious workers
- Organize precarious workers and contribute to enforcing their right to join a union
- Support IndustriALL's work with other Global Union Federations to campaign globally against precarious work
- Mobilize their members on October 7, the World Day for Decent Work, in the global campaign to STOP Precarious Work.
